

## **Wada FoodTech's "Hot-chain Logistics Solution Platform" Receives Subsidy Approval from JETRO**

[June 18, 2024] - TOKYO, Japan - Wada FoodTech, a leading provider of AIoT-powered hot-chain logistics solutions for the foodservice industry, today announced that its "Hot-chain Logistics Solution Platform for the Foodservice Industry to Improve Food Safety and Address Labor Shortages" project has received approval for a subsidy from JETRO, the Japan External Trade Organization.

This subsidy represents not just financial support, but also national-level recognition from Japan, endorsing Wada FoodTech's potential to make a meaningful contribution to Japan's foodservice industry. Wada FoodTech is honored to have this endorsement and is committed to leveraging this opportunity to drive innovation and positive change.

"We are thrilled to receive this subsidy approval from JETRO," said Jason Chen, CEO of Wada FoodTech. "This is a testament to the transformative potential of our Hot-chain Logistics Solution Platform, which uses advanced AIoT technologies to optimize the logistics of ready-to-eat meals, ensuring the highest standards of food safety while also addressing labor shortages through automation."

Wada FoodTech's Hot-chain Logistics Solution Platform is designed to revolutionize the foodservice industry, not just in Japan but globally. This subsidy is an important milestone that validates the company's vision and will help accelerate the platform's development and deployment.

"We are grateful for the support of JETRO and the Japan government, and we would like to thank our dedicated team for their hard work in bringing this innovative solution to life," added Jason Chen. "This is just the beginning, and we are excited to continue our journey of transforming the foodservice industry through cutting-edge technology and sustainable practices."
